## 8322 BREAKERS TRACE COURT Cape Side

4

4

2

This is a home that absolutely must be seen to be appreciated. Nestled on a .45 acre cul-de-sac lot in the quaint and quiet community of Cape Side in Sunset Beach, this Whitney Blair custom built beauty is ready for a set of new owners. No detail has been overlooked in this home. With solid oak hardwood floors and 10 foot ceilings on the first floor, this home feels spacious and airy. The custom trim work and oversized crown moldings help create a feeling of luxury. The spacious kitchen, equipped with custom cabinetry, a large island, walk-in pantry, and upscale appliances make this kitchen a cook's or entertainer's dream. The 48 inch, 6 burner Kitchen Aid gas stove with griddle area is only two years old. There is even a

built-in china cabinet around the corner for all of your occasional dishware and serving pieces. The sunken living room is cozy and charming, and the family room with gas fireplace provides an additional gathering area. The whole-home central vacuum system makes upkeep much easier. With three bedrooms and three bathrooms on the first floor, and an additional bedroom and bathroom upstairs, there is plenty of room for guests over the years. These conscientious owners have been excellent stewards of this home. With a roof that was replaced 12/24, the main floor HVAC unit replaced 1/25, and the second floor HVAC and 2 Rinnai tankless water heaters being only 4 years old, you can relax and enjoy.
